Secure 1% plus 1% Commission, or even more online!

Our strategy ensures that you will get your fair share in each transaction, regardless of if you are actively working with a client or only introduced him to us. Our contract terms guarantee your commission payment, and we will make sure that you will be paid for your efforts. And this also works if you introduce another intermediary or agent to us! Irrevocably secure your rights to receive a commission for transactions with any of the potential clients and participate also in transactions of intermediaries you introduce!

We enable instant Commission Confirmation online and this service is open to anybody qualified to work with us.

There is 1% (one) percent of consulting fees to be paid to the brokers on the side of the Facilitator, and the terms of our strategy will provide for 1% (one) percent commission for the client introducing party or parties.

The actual client will be liable to pay 1% to the facilitator side brokers and 1% to the actual client introducing party or parties.

This 1% can be negotiated with the actual client. If he or she is prepared to pay a higher commission, we will secure a higher commission for the client introducing side. If there are more people or entities registered to receive commission, the client-side introducer(s) will split this commission equally and we will make sure that the commission is being paid to the respective party or parties as it may apply.

You can secure your future commission also if you have not yet been officially appointment.

Our Online Commission Confirmation also works if you have no official appointment yet. In that case you are permitted to enter up to 25 of your active contacts into the database to secure your commission on a potential transaction, no matter if you introduce a potential client, or a potential intermediary wishing to start working with us. But remember, you will have to already have an active business relationship with any of the parties that you enter in the Online Commission Confirmation system to validate the request and the confirmation. This is a one level Commission Confirmation. The commission confirmation will be valid for one deal with the actual client, and it is valid for 365 days if a transaction with that contact (client or intermediary) materializes during that time. Upon a successful transaction, the commission confirmation will also renew for another year.

Verification of Commission Confirmation. Once a month you can request via email an updated list of all your contacts that are presently covered under the Commission Confirmation arrangements free of charge.

Get your Online Commission Confirmation here

Secure your Commission right here! This will irrevocably secure your rights to receive a commission for transactions with any of the potential clients or intermediaries you introduce! We now enable instant Commission Confirmation online and this service is open to anybody qualified to work with us.

If you are already Officially Appointed. This Online Commission Confirmation works for you 250 times if you have been Appointed as Authorized Collateral Advisor, or 1000 times if you have qualified to be one of our Senior Elite Professionals.

If you have not been officially appointment yet. Our Online Commission Confirmation also works if you have no official appointment yet. In that case you are permitted to enter up to 25 of your active contacts into the database to secure your commission on a potential transaction, no matter if you introduce a potential client, or a potential intermediary wishing to start working with us.

Secure commission on any of your active Clients and Intermediary contracts. Once you entered the required details into the system, your commission will be secured instantly if you entered a valid potential client of yours or an intermediary you are actively working with.

This is a one level Commission Confirmation. The commission confirmation will be valid for one deal with the actual client and it is valid for 365 days if a transaction with that contact (client or intermediary) materializes during that time.
